She was taken with a slight pain in the wrist of the left arm Saturday night, and frequently complained of it during the night, but would not consent to her husband going for a doctor. Sunday morning she was still complaining of the pain in her arm, and her husband started for the doctor. He had not been gone more than thirty minutes, when her father-in-law, who was in the room, heard her give a short scream, and ran to her bedside, finding her breathing her last.
